A KEY Lesson From AI

A BIG question: WHO is accountable (responsible) for AI atrocities? This is an important question.

But this is not what this blog is all about. This is NOT an address on Artificial Intelligence but is a blog (more so for Christians) on the AI of Joshua 7 & 8. Please take time to read this historical event now, before proceeding. YES, please prayerfully read Joshua 7 & 8.

A few observations:

> The Lord's displeasure was against 'the children of Israel' – stated twice in Joshua 7:1 – due to Achan's sin. As a result of his sin, about 36 men of Israel died of the army numbering around 3,000. The result of his sin for Israel, in general: The hearts of the people (of Israel) melted. Further insights: "Israel" had sinned – see Joshua 7:11. Verse 12 goes on to state the children of Israel could not stand against their enemies. Result: Israel – not only Achan – could not stand against the Amorite city inhabitants of AI. Will we, God's Church in Jesus Christ, acknowledge the following: We need to affirm, in light of Bible facts, that the judgment of the sin of one (Achan) affected all of Israel. Will we accept this principle from the Word of God? Other examples could be stated, but not here. We also acknowledge the *other side of the coin* when it comes to the issue of culpability for sin – the one committing the sin is responsible and vulnerable for judgment. Also note God's disclosed resolution before His blessings could return: Remove the accursed. Until that was done, Israel – not just Achan – could not stand against its enemies.
>
> Israel did act. The community killed the house of Achan (though his wife is not listed). God's blessings returned – initially seen in the account disclosed in Joshua 8.

In light of New Covenant principles included with the Bible principle of this Joshua 7, 8 account, we need to affirm the whole Counsel of God on existential matters | encounters.

Our appeal …

What can we take away, application wise, from the insights above?

~ Fear God and keep His commandments, for God does indeed, at times, unleash His righteous judgments in a general way – in ways affecting ALL of mankind … even His Church.

~ Pray against disobedience, for consequences of transgression against God's Word are, at times, costly for many.

~ God, in His faithfulness to His mercy, forgives the compromises of those who confess and who go on to repent (turn from) their conscious | direct and unconscious | indirect disobedience.

In a day when consequences for sin can bring devastation, we need to better walk on His *straight and narrow path*. We cannot afford to incur the just judgment of God as we press on in these *end of days* before Jesus Christ makes His initial appearing.

Allow me to close with a question as we return to the other contemporary threat of AI – Artificial Intelligence.

Could God use the threat of AI to melt the hearts of His New Covenant people, some of whom have become so worldly in their apostasy that God's judgment could be righteously brought? Recall: Judgment begins in the house of God ; God does indeed judge His own people when He deems necessary to do so.

We recommend the prayerful reading of two passages relating to this matter:

1. the book of I Peter, especially noting I Peter 4:17
2. the letters to the churches in Revelation 2, 3

Conclusion General judgment from God, at times – due to the sin | sins of others – is delivered to the general community. This being so, the Church in Christ Jesus should care about the sins of those *in the camp* who claim to be followers of the Son of God. Almost every-one (if not all) experiences God's general judgment at times. May these caring acts of divine discipline move us to repentance as we express our *fear of God*. [A biblical word study on the **fear** of God is most insightful!]

Back to pragmatics – to practical matters. … So how does this relate to *life in Christ* today?

Dear Family in Christ, let's NOT fault God when His general judgments fall. May we better discern this:

When His judgments come as a result of compromise in the camp,
let's NOT get angry with God or, God forbid, depart from the faith.

Regarding AI atrocities AI brought upon Israel the atrocity of defeat in battle (for some, death), discouragement and the temporary departure of God's favor – until the addressing of the sin took place.

When the instrument of Artificial Intelligence begins delivering global atrocities, who will be blamed?

As AI delivered battle atrocities to Israel, God will allow global battle atrocities to fall on the earth. The Church will be on the earth during the early atrocities BUT will not be on earth for the final wave of atrocities (the Bowls of God's Wrath) due to the final trumpet rapture of His Saints. The final trumpet of I Corinthians 15 is the 7th Trump of Revelation 11. For clear Bible evidence of this particular *end time* scenario, please read through some of our related materials.
